AMA Guides® has been the accepted standard for impairment and disability assessment since 1958. With these products, the AMA aims to provide relevant training resources, user-friendly tools, and essential references for physicians and other health care workers with a professional investment in impairment and disability evaluation, particularly those who perform—or need to understand—independent medical examinations (IMEs).

AMA Guides: 6th edition. The Sixth Edition represents the continued evolution of impairment evaluation. Many states require the use of the “most recent Edition” of the Guides either by statute or code. The most recent edition is the standard for U.S. Federal workers' compensation cases (Federal Employee's Compensation Act).

We are currently following the 10th edition of the AMA style guide. AMA is a documentary-note style, which means you put a number in your text to cite sources of information and the reference list is in numerical order. In text citations are in superscript 1 and in order of citation (the first citation is 1 the next is 2). If you use the same source again, you keep the same number (the source you used for the first citation is always 1, even if you use it again

after 6).

The Guides started in 1958 with publication by the American Medical Association (AMA) of the article, “A Guide to the Evaluation of Permanent Impairment of the Extremities and Back”; this was followed by additional guides published in the Journal of the American Medical Association. In 1971, a compendium of 13 guides became the First Edition.
