hundreds times for their chosen books like this atlas of injection therapy in pain management, but end up in infectious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they juggled with some malicious virus inside their laptop.

Pain is the most frequent cause for patient-physician contact. The patient expects rapid relief and freedom from pain. The more efficient the relief, the more successful the physician is felt to be. Besides elimination of pain-producing causes, elimination of pain itself is the ultimate ambition of therapy.
