Hailed as a masterpiece of American travel writing, Blue Highways is an unforgettable journey along our nation's backroads. William Least Heat-Moon set out with little more than the need to put home behind him and a sense of curiosity about "those little towns that get on the map-if they get on at all-only because some cartographer has a blank space to fill: Remote, Oregon; Simplicity, Virginia; New Freedom, Pennsylvania; New Hope, Tennessee; Why, Arizona; Whynot, Mississippi." His adventures, his discoveries, and his recollections of the extraordinary people he encountered along the way amount to a revelation of the true American experience.
In 1978, William Least Heat-Moon made a 14,000-mile journey on the back roads of America, visiting 38 states along the way. In 1982, the popular Blue Highways, which chronicled his adventures, was published. Three decades later, Edgar Ailor III and his son, Edgar IV, retraced and photographed Heat-Moon ' s route, culminating in Blue Highways Revisited, released for publication on the thirtieth anniversary of Blue Highways. A foreword by Heat-Moon notes, "The photographs, often with amazing accuracy, capture my verbal images and the spirit of the book. Taking the journey again through these pictures, I have been intrigued and even somewhat reassured that America is changing not quite so fast as we often believe. The photographs, happily, reveal a recognizable continuity — but for how much longer who can say — and I'm glad the Ailors have recorded so many places and people from Blue Highways while they are yet with us." Through illustrative photography and text, Ailor and his son capture once more the local color and beauty of the back roads, cafes, taverns, and people of Heat-Moon ' s original trek. Almost every photograph in Blue Highways Revisited is referenced to a page in the original work. With side-by-side photographic comparisons of eleven of Heat-Moon ' s characters, this new volume reflects upon and develops the memoir of Heat-Moon ' s cross-country study of American culture and spirit. Photographs of Heat-Moon ' s logbook entries, original manuscript pages, Olympia typewriter, Ford van, and other artifacts also give readers insight into Heat-Moon ' s approach to his trip. Discussions with Heat-Moon about these archival images provide the reader insight into the travels and the writing of Blue Highways that only the perspective of the author could provide. Blue Highways Revisited reaffirms that the "blue highway" serves as a romantic symbol of the free and restless American spirit, as the Ailors lose themselves to the open road as Heat-Moon did thirty years previously. This book reminds readers of the insatiable attraction of the " blue highway " — " But in those brevities just before dawn and a little after dusk—times neither day or night—the old roads return to the sky some of its color. Then, in truth, they carry a mysterious cast of blue, and it's that time when the pull of the blue highway is strongest, when the open road is a beckoning, a strangeness, a place where a man can lose himself " (Introduction to Blue Highways).
Winner, Distinguished Literary Achievement, Missouri Humanities Council, 2015 The story behind the writing of the best-selling Blue Highways is as fascinating as the epic trip itself. More than thirty years after his 14,000-mile, 38-state journey, William Least Heat-Moon reflects on the four years he spent capturing the lessons of the road trip on paper—the stops and starts in his composition process, the numerous drafts and painstaking revisions, the depressing string of rejections by publishers, the strains on his personal relationships, and many other aspects of the toil that went into writing his first book. Along the way, he traces the hard lessons learned and offers guidance to aspiring and experienced writers alike. Far from being a technical manual, Writing Blue Highways: The Story of How a Book Happenedis an adventure story of its own, a journey of " exploration into the myriad routes of heart and mind that led to the making of a book from the first sorry and now vanished paragraph to the last words that came not from a graphite pencil but from a letterpress in Tennessee. " Readers will not find a collection of abstract formulations and rules for writing; rather, this book gracefully incorporates examples from Heat-Moon ' s own experience. As he explains, " This story might be termed an inadvertent autobiography written not by the traveler who took Ghost Dancing in 1978 over the byroads of America but by a man only listening to him. That blue-roadman hasn ' t been seen in more than a third of a century, and over the last many weeks as I sketched in these pages, I ' ve regretted his inevitable departure. " Filtered as the struggles of the " blue-roadman " are through the awareness of someone more than thirty years older with a half dozen subsequent books to his credit, the story of how his first book " happened " is all the more resonant for readers who may not themselves be writers but who are interested in the tricky balance of intuitive creation and self-discipline required for any artistic endeavor.

A hypnotic debut of broken love on the run, from a blazingly original young writer " A road novel, a love story, a coming-of-age tale, but with sentences so sharply wrought, characters so achingly precise, that it feels new and fresh and utterly alive. " —Lynn Steger Strong, author of Want " In front of me the long length of the road wound out, wound out and wound on under hot sky. And I drove . . . " In the lonely town of San Padua, Anne Marie can never get the sound of the ocean out of her head. And it ' s here—dog-walking by day, working bars by night—where she tries to forget about her ex-husband, Cal: both their brief marriage and their long estrangement. When Cal shows up on Anne Marie ' s doorstep one day, clearly in trouble, she reluctantly agrees to a drink. But later that night a gun goes off in a violent accident and the young couple are forced to hit the open road together in escape. Crammed in a beat-up car with their broken past, so begins a journey across a vast, mythical American landscape, through the dark seams of the country, toward a city that may or may not represent salvation. Highway Blue is a story of being lost and found—and of love, in all its forms. Written in spare, shimmering prose, it introduces the arrival of an electrifyingly singular new voice.
In 1848 an English physician, Nathaniel Trennant, accepts an offer to serve as doctor on a ship carrying immigrants to America. When arriving in Baltimore, Trennant stumbles onto its slave market and witnesses the horrors of human bondage. One night in a boardinghouse he discovers under his bed a runaway slave. Disturbed and angered by the selling of human lives, he offers to help the young man escape, a criminal action that will put the fugitive slave and physician into flight from both the law and opportunistic slave hunters. Traveling by foot, horse, stage, canal boat, and steamer, Nathaniel and Nicodemus explore the backcountry and forge a deep friendship as they encounter a host of memorable characters who reveal the nature of the American experiment, one still in its early stages but already under the stress of social injustices and economic inequities.

Tired of speaking to like-minded people, San Francisco blogger and radio journalist Rose Aguilar quit her job, bought a Toyota van, picked up her boyfriend, and took off on a six-month road trip through southern and mountain states. There she interviewed a wide array of people who rarely, if ever, appear in the national media. They include a former Republican evangelical pastor who now preaches inclusion in Tulsa; anti-war, pro-choice, and green Republicans; and a Montana hunter planning to leave his job as a conservationist to fight for gay rights. This political travelogue challenges stereotypes and goes far beyond the sound bites and statistics to reveal what red-state voters really care about—and what they expect from their political leaders. As Aguilar writes in the first chapter, " We breathe the same air, we live under the same political system, we ' ve probably seen the same television and news shows, and most of us grew up going to public schools; yet because we might vote differently once every four years, we find ourselves stereotyped in the national media and separated by red and blue borders. " Red Highways is a riveting examination of what matters most in the heartland, what makes it tick, and what issues get its citizens to vote.
This New York Times bestseller by the author of Blue Highways is " a majestic survey of land and time and people in a single county of the Kansas plains " (Hungry Mind Review). William Least Heat-Moon travels by car and on foot into the core of our continent, focusing on the landscape and history of Chase County—a sparsely populated tallgrass prairie in the Flint Hills of central Kansas—exploring its land, plants, animals, and people until this small place feels as large as the universe. Called a " modern-day Walden " by the Chicago Sun-Times, PrairyErth is a journey through a place, through time, and into the human mind from the acclaimed author of Here, There, Elsewhere: Stories from the Road. " A sense of the American grain that will give [PrairyErth] a permanent place in the literature of our country. " —Paul Theroux, The New York Times
About a quarter century ago, a previously unknown writer named William Least Heat-Moon wrote a book called Blue Highways. Acclaimed as a classic, it was a travel book like no other. Quirky, discursive, endlessly curious, Heat-Moon had embarked on an American journey off the beaten path. Sticking to the small places via the small roads -- those colored blue on maps -- he uncovered a nation deep in character, story, and charm. Now, for the first time since Blue Highways, Heat-Moon is back on the backroads. Roads to Quoz is his lyrical, funny, and touching account of a series of American journeys into small-town America.

The acclaimed author of Blue Highways and PrairyErth chronicles his journey across America's waterways in his dory Nikawa (River Horse), encountering strange people, hostile cities, and hair-raising dangers. Reprint.
