This full-color art book delves deep into the lore of the tremendously popular competitive first-person shooter Apex Legends. Explore the world of the hit game through the eyes of the lovable robot, Pathfinder, as he chronicles his journey throughout the various environs of the Outlands to interview his fellow Legends--all in the hope of finally locating his mysterious creator. The rich history of Apex Legends is explained by the characters that helped to shape it, as are their unique bonds of competition and camaraderie. This volume chronicles the world of Respawn Entertainment's stunning free-to-play game that has captivated the online gaming scene, attracting over seventy million players and counting. Don't miss your opportunity to own a piece of Apex Legends history!

Paolo Bacigalupi's debut collection demonstrates the power and reach of the science fiction short story. Social criticism, political parable, and environmental advocacy lie at the center of Paolo's work. Each of the stories herein is at once a warning, and a celebration of the tragic comedy of the human experience. The eleven stories in Pump Six represent the best Paolo's work, including the Hugo nominee "Yellow Card Man," the nebula and Hugo nominated story "The People of Sand and Slag," and the Sturgeon Award-winning story "The Calorie Man."

Being a truly innovative company is more than the dreaming up of new products and services by external consultants and internal taskforces. Staying one step ahead of the competition requires you to embed innovation into your organizational culture. Innovation needs to be embodied in everything that gets done by everyone who works there. By changing your organizational culture to one that supports innovation, you will remove the barriers that stop you responding quickly and agilely to changing market conditions and opportunities for growth. Building a Culture of Innovation presents a practical framework that you can follow to design and embed a culture of innovation in your business.The six-step Innovation Culture Change Framework offers a structured process to make change stick, from assessing your organization's innovation-readiness to leading a managed change process that will foster innovation at each level. It includes case studies from international organizations which have shifted their focus to an innovation culture, including Prudential, Qinetiq, Octopus Investments, Cisco, Siemens, BrightMove Media, Waitrose and Feefo. Supported with downloadable resources, Building a Culture of Innovation is an essential read for business leaders and change implementation teams who want to place innovation at the heart of their business strategy.

What to Say, How to Say It, Why It Matters If you're trying to sell something-whether it's a product, a service, or an idea-you are facing a new era of consumers who listen less and question more. The Language of Trust is for anyone who must sell ideas, products, services, or even themselves to a public that just doesn't want to hear it. Based on pioneering consumer research, The Language of Trust shows you how to regain the confidence of your clients and customers and communicate with them on their terms. You'll learn what words to use, what words to lose, and how to structure your message to overcome skepticism and build and keep the trust of your audience.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Arthur goes to pick up the turkey for Thanksgiving dinner but comes back with a 266-pound chicken.

In " The People of Sand and Slag," a Hugo and Nebula Award-nominated short story, Paolo Bacigalupi weaves a tale about the lives of three technologically modified guards, their barren, heavily mined landscape, and a chance encounter with a creature rare for their time period - a dog. What starts off as a hunt for an enemy ends up as a story of empathy, and what it means to be human. " The People of Sand and Slag " was nominated for the 2005 Hugo Award for Best Novelette, and the 2006 Nebula Award for Best Novelette. It was featured in Gardner Dozois ' s " Year ' s Best SF " Twenty-Second Edition, Jonathan Strahan ' s " Best SF of the Year " 2004 Edition, and in John Joseph Adams ' " Wastelands " Anthology in 2008. Reviews: " A difficult and touching story, which steps pretty far outside the box to examine our relationship to pets, and to nature. At every stage, Bacigalupi gets it right. " --> Internet Review of Science Fiction " Bacigalupi posits a future where humanity has adapted itself to living in a hostile environment. ... There is plenty of techie stuff entwined with the premise itself to satisfy the hardest of hard sf readers, but the main attraction of this story is the faint hope that those parts of us that can accept the "other" might still exist in a world where self-preservation and survival come first.
