Enlarged print edition now available! Writing in an accessible and anecdotal style, Tom Wright helps us to approach the rich and many-sided story of the book of Acts. Wright shows how the book builds on Luke's Gospel, laying out the continuing work and teaching of the now risen and ascended Jesus in the power of the Spirit. His writing captures the vivid way in which Luke's work draws us all into he story, while leaving the ending open and challenging, inviting Christians today to pick up and carry on the story as we in turn live our lives in the service of Jesus. Tom Wright has undertaken a tremendous task: to provide guides to all the books of the New Testament and to include in them his own translation of the entire text. Each short passage is followed by a highly readable discussion with background information, useful explanations and suggestions, and thoughts as to how the text can be relevant to our lives today. A glossary is included at the back of the book. The series is suitable for group study, personal study, or daily devotions.

Criminal and Civil Forfeiture; 4. Compliance and 5. International Cooperation. Each chapter is made up of five parts. Part I, "Introduction," begins with the analysis of money laundering risks and compliance with the recommendations of the Financial Action Task Force (FATF), and then concludes with the country's rating based on the International Narcotics Control Strategy Report (INCSR) of the U.S. State Department. Part II, "Anti-Money Laundering and Combating Terrorist Financing (AML/CTF)" and Part III, "Criminal and Civil Forfeiture," evaluate the judicial and legislative structures of the country. Given the increasing global dimension of AML/CTF activities, these sections give special attention to how a country has created statutes, decisions, policies and the judicial enforcement procedures needed to combat money laundering and terrorist financing. Part IV, "Compliance," examines the most critical processes for the prevention and detection of money laundering and terrorist financing. This section reflects on the practical elements that should be in place so that financial institutions can comply with AML/CTF requirements; these are categorized into the development and implementation of internal controls, policies and procedures. Part V, "International Cooperation," reviews the compilation of international laws and treaties between countries working together to combat money laundering and terrorist financing. As these unlawful activities can occur in any given country, it is important to identify the international participants who are cooperating to develop methods to obstruct these criminal activities.

One of the BBC's '100 Novels That Shaped Our World' A worldwide bestseller and the first part of Achebe's African Trilogy, *Things Fall Apart* is the compelling story of one man's battle to protect his community against the forces of change Okonkwo is the greatest wrestler and warrior alive, and his fame spreads throughout West Africa like a bush-fire in the harmattan. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. First published in 1958, Chinua Achebe's stark, coolly ironic novel reshaped both African and world literature, and has sold over ten million copies in forty-five languages. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*. economic injustice: sustainable development. Sachs offers readers, students, activists, environmentalists, and policy makers the tools, metrics, and practical pathways they need to achieve Sustainable Development Goals. Far more than a rhetorical exercise, this book is designed to inform, inspire, and spur action. Based on Sachs's twelve years as director of the Earth Institute at Columbia University, his thirteen years advising the United Nations secretary-general on the Millennium Development Goals, and his recent presentation of these ideas in a popular online course, *The Age of Sustainable Development* is a landmark publication and clarion call for all who care about our planet and global justice. Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.
