affinities, approaches, and subjects that characterize today's word and image studies. The essays, a selection of papers first presented in 2005 at the seventh international conference of the International Association of Word and Image Studies/Association Internationale pour l'Étude des Rapports entre Texte et Image that took place in Philadelphia, are case studies of the diverse configurations of the textual and the iconic. "Elective affinities" — a notion originally borrowed by Goethe for his 1809 novel of the same title from eighteenth-century chemistry — here refers to the active role of the two partners in the relationship of the pictorial and the verbal. Following the experimental modalities

opened up by Goethe, the present volume is divided into three sections, which explore, respectively, how words and images can merge in harmony, engage in conflicts and contestations, and, finally, interact in an experimental way that self-consciously tests the boundaries and relations among verbal and visual arts. New perspectives on word and image relationships emerge, in periods, national traditions, works, and materials as different as (among many others) an installation by Marcel Duchamp and the manual accompanying it; the impact of artificial light sources on literature and art; nineteenth-century British illustrations of Native Americans; the

contemporary comic book, a seventeenth-century Italian devotional manuscript uniting text, image, and music; Chinese body and performance art..

The imaginary is explored as it manifests itself in encounters between the verbal and the visual. These essays explore the transposition of the imaginary comic books, film and digital media, with special attention to the imaginary of places and the relationship with memory.

Best known for her long-running comic strip Ernie Pook's Comeek, illustrated fiction (Cruddy, The Good Times Are Killing Me), and graphic novels (One! Hundred! Demons!), the art of Lynda Barry

(b. 1956) has branched out to incorporate plays, paintings, radio commentary, and lectures. With a combination of simple, raw drawings and mature, eloquent text, Barry's oeuvre blurs the boundaries between fiction and memoir, comics and literary fiction, and fantasy and reality. Her recent volumes *What It Is* (2008) and *Picture This* (2010) fuse autobiography, teaching guide, sketchbook, and cartooning into coherent visions. In *Lynda Barry: Girlhood through the Looking Glass*, author Susan E. Kirtley examines the artist's career and contributions to the field of comic art and beyond. The study specifically concentrates on Barry's recurring focus on figures of young girls, in a variety of

mediums and genres. Barry follows the image of the girl through several lenses—from text-based novels to the hybrid blending of text and image in comic art, to art shows and coloring books. In tracing Barry's aesthetic and intellectual development, Kirtley reveals Barry's work to be groundbreaking in its understanding of femininity and feminism.

This collection of original articles brings together for the first time the research on graffiti from a wide range of geographical and chronological contexts and shows how they are interpreted in various fields. Examples range as widely as medieval European cliff

carvings to tags on New York subway cars to messages left in library bathrooms. In total, the authors legitimize the study of graffiti as a multidisciplinary pursuit that can produce useful knowledge of individuals, cultures, and nations. The chapters-represent 20 authors from six countries; -offer perspectives of disciplines as diverse as archaeology, history, art history, museum studies, and sociology;-elicit common themes of authority and its subversion, the identity work of subcultures and countercultures, and presentation of privilege and status.

What is a face and how does it relate to personhood?

# Acces PDF Elective Affinities Testing Word And Approaching Facial Difference: Past and Present offers an interdisciplinary exploration of the many ways in which faces have been represented in the past and present, focusing on the issue of facial difference and disfigurement read in the light of shifting ideas of beauty and ugliness. Faces are central to all human social interactions, yet their study has been much overlooked by disability scholars and historians of medicine alike. By examining the main linguistic, visual and material approaches to the face from antiquity to contemporary times, contributors place facial diversity at the heart of our historical and cultural narratives. This cutting-edge collection of essays will be an

This book investigates the wide-ranging connections between sculpture, sexuality, and history in Western culture from the eighteenth century to the present. Sculpture has offered a privileged site for the articulation of sexual experience and the formation of sexual knowledge. As historical objects, sculptures also draw attention to the different ways in which knowledge about sexuality is facilitated through an engagement with the past.

Bringing together contributors from across disciplines, including art history, classics, film studies, gender studies, history, literary studies, museum studies, queer theory and reception studies, the volume presents original readings of sculptural art in relation to antiquarianism, aesthetics, collecting cultures, censorship and obscenity, psychoanalysis, sexology, and the experience and regulation of museum spaces. It examines how sculptural encounters were imagined and articulated in literature, painting, film and science. As a whole, the book opens up a new understanding of the ways in which sculptures, as real or imagined objects, have fundamentally shaped

Spanning two centuries and two continents, *Art, Piety and Destruction in the Christian West, 1500-1700* addresses the impact of religious tensions on art, design, and architecture in the early modern world. Beyond famous works of art such as Kraft's Eucharistic Tabernacle, the volume examines less-studied objects, including church plate and vestments, stained glass, graffiti, and Mexican images of St. Anne, created throughout the sixteenth and seventeenth

centuries. The collection's contributors present religious artworks from Germany, England, Italy, France, Spain, and Mexico; the media include sculpture, oil painting, fresco, metalwork, dress, and architecture.

Questions of art's destruction, preservation, and censorship are discussed against the ever-present backdrop of religious conflict and varying degrees of tolerance. New information and original perspectives demonstrate the ways in which art illuminates history, and the close links between the changing values of a society and the images it displays to represent itself.

The study of early drama has undergone a quiet revolution in

the last four decades, radically altering critical approaches to form, genre, and canon. Drawing on disciplines from art history to musicology and reception studies, The Routledge Research Companion to Early Drama and Performance reconsiders early "drama" as a mixed mode entertainment best studied not only alongside non-dramatic texts, but also other modes of performance. From performance before the playhouse to the afterlife of medieval drama in the contemporary avant-garde, this stunning collection of essays is divided into four sections: Northern European Playing before the Playhouse; Modes of Production and Reception; Reviewing the Anglophone

and critical strategies in the eighteenth and nineteenth centuries. Throughout this period, new types of subject matter were shared, fostering both creative connections and reflection on matters of decorum, legibility, pictorial, and dramatic structure. Correspondances were at work on several levels: conception, design, and critical judgement. In a time of vigorous social, political, and cultural contestation, the status and role of the arts and their interrelation came to be a matter of passionate public scrutiny. Scholars from art history, French theatre studies, and musicology trace some of those connections and clashes, making visible the intimately interwoven and entangled world
