"This is the first book to concentrate exclusively on texts about Boudica and to cover the full chronological range from the first surviving historical account by Tacitus in AD 98 to the triumphant conclusion of Manda Scott's series of novels in 2006. All our knowledge of the ancient British queen Boudica, and her ferocious yet ultimately unsuccessful rebellion against the Romans, is derived from a few accounts in ancient Greek and Latin. Yet they have inspired a flood of history, fictional narrative, drama, and poetry, and there is no indication that the process has ended. This study illuminates and celebrates the rich variety generated by the creative tensions between writers' knowledge and their individual tastes, beliefs, and political or artistic aims and considers whether Boudica's textual metamorphoses are without limits or variations on a distinctive theme bounded by a flexible yet enduring narrative pattern." --Book Jacket.

A wide variety of tales of adventure, romance, war, eroticism, sexuality, and survivalism. True to life descriptions of first person accounts. How and why the inhabitants were able to cope with the uncertainty and insanity of inter-galactic struggle for power and order, dominance and control. There must be a new definition for surreal. Everyday action twisted into the fantastic. The line between the surreal and the Phantasmagoric is thin. You can get Impaled upon the narrowness of this line. Mr Gremillion uses the stories of seemingly unrelated characters which he deftly sketches to paint a mythology that he owns like a singer owns a song in the perfection of its delivery. I'll call it a novel. You might call it a collection of wildly colorful stories. It doesn't matter. Like Naked Lunch it can be begun or finished on any page. This novel is intensely cinematic. It uses every variation of the quick cut and the slow-mo cross fade and stretches ideas across visions and scenes. The use of dialogue and vignette create a collage of intricate dream visions examining love and sex and mythology and tantric subconscious inner twistations all portrayed in a chilling vision of the future which is upon us now. Gremillion's language is like chunky silk that takes the mind in directions unimagined like light glancing on a bullet. Imagine Verne, Lau Tsu and Voltaire twisted in a phantom reverie.

The Code of Hammurabi was one of several sets of laws in the ancient Near East and also one of the first forms of law. The code of laws was arranged in orderly groups, so that all who read the laws would know what was required of them. Earlier collections of laws include the Code of Ur-Nammu, king of Ur (c. 2050 BC), the Laws of Eshnunna (c. 1930 BC) and the codex of Lipit-Ishtar of Isin (c. 1870 BC), while later ones include the Hittite laws, the Assyrian laws, and Mosaic Law. These codes come from similar cultures in a relatively small geographical area, and they have passages which resemble each other.
