Saying Farewell with Poetry at the End of this Unprecedented School Year June 1, 2020 by Peter Armenti The following guest post, part of our "Teacher 's Corner" series, is by Rebecca Newland, a Fairfax County Public Schools Librarian and former Teacher in Residence at the Library of Congress.

In *Ten Poems to Say Goodbye*, the newest addition to the celebrated *Ten Poems* series, Roger Housden continues to highlight the magic of poetry, this time as it relates to personal loss. But while the selected poems in this volume may focus upon loss and grief, they also reflect solace, respite, and joy. A goodbye is an opportunity for kindness, for forgiveness, for intimacy, and ultimately for love and a deepening acceptance of life as it is rather than what it was. Goodbyes can be poignant, sorrowful, sometimes a relief, and—now and then—even an occasion for joy. They are always transitions that, when embraced, can be the door to a new life both for ourselves and for others. In this inspiring and consoling volume, Housden encourages readers to embrace poetry as a way of enabling us to better see and appreciate the beauty of the world around and within us.

A book of poetic essays written in English, Kahlil Gibran's *The Prophet* is full of religious inspirations. With the twelve illustrations drawn by the author himself, the book took more than eleven years to be formulated and perfected and is Gibran's best-known work. It represents the height of his literary career as he came to be noted as 'the Bard of Washington Street.' Captivating and vivified with feeling, *The Prophet* has been translated into forty languages throughout the world, and is considered the most widely read book of the twentieth century. Its first edition of 1300 copies sold out within a month.

From *Twenty Books of Verse* published between 1940 and 1993, John Ciardi gives us poems of love written with care and honest discernment; poems of the natural world that reveal humanity's kinship to spiders and nebulae, oceans and thickets; and poems that tellingly render the ritual dance of human life and mortality.

Provides teaching strategies and describes the poetry-writing process to help kindergartners write poems.

The 2019 edition of *The Best American Poetry*—“one of the mainstays of the poetry publication world” (Academy of American Poets)—now guest edited by Major Jackson, award-winning poet and poetry editor of the *Harvard Review*. Since 1988, *The Best American Poetry* has been the leading anthology of contemporary American poetry. The *Washington Post* said of the 2017 edition, “The poems...have a wonderful cohesion and flow, as if each contributes to a larger narrative about life today... While readers may question some of the selections—an annual sport with this series—most will find much that resonates, including the insightful author notes at the back of the anthology.” The state of the world has inspired many to write poetry, and to read it—to share all the rage, beauty, and every other thing under the sun in the way that only poetry can. Now the foremost anthology of contemporary American poetry returns, guest edited by Major Jackson, the poet and editor who, “makes poems that rumble and rock” (poet Dorianne Laux). This brilliant 2019 edition includes some of the year 's most defining, striking, and innovative poems and poets.

Poetry can be both political and pedagogical. It is utilised in a variety of ways in research to enhance, critique, analyse, and express different voices. *Poetry, Method and Education Research* brings together international scholars to explore issues as diverse as neoliberalism, culture, decolonising education, health, and teacher identities. A key strength of the book is its attention to poetry as a research method, including discussions of "how to" engage with poetry in research, as well as including a range of research poems. Poetry is thus framed as both a method and performance. Authors in this book address a wide variety of questions from different perspectives including how to use poetry to think about complex issues in education, where poetry belongs in a research project, how to write poetry to generate and analyse "data", and how poetry can represent these findings. This book is an essential resource for students and researchers in education programmes, and those who teach in graduate research methods courses.

Indian writing in English, especially fiction, continues to capture the attention of readers all over the English-speaking world. Conversely, the strong and flourishing tradition of poetry in English from India has not impacted the contemporary world in the same manner as the fiction. This book creates a debate to highlight the well-grounded and confident tradition of Indian Poetry in English which began almost two hundred years ago with the advent of the British. Individual essays on poets before and since the Indian Independence focus on the poetry of Derozio, Tagore, Aurobindo and Naidu right down to the modern and contemporary poets like Ezekiel, Mahapatra, Ramanujan, Kolatkar, Das, Moraes, Daruwalla, de Souza, Jussawalla and Patel who ushered in a change both in terms of subject matter and style. On either side of the Atlantic, this book which includes a substantial Introduction, Select Bibliography and Index is of value to scholars, teachers and researchers on Indian Poetry in English.

"When Mai's family discovers that Vietnam government soldiers will soon apprehend her father and grandmother, the family slips away in the night. They trudge through the swamps of the Mekong Delta toward the sea. The gut-wrenching trip to Hong Kong is just another step toward a new life, which the family eventually finds. Whelan's characters are distinctive, and her story is riveting, haunting, and memorable, reflecting the human virtues of determination, hope, love, and courage in the face of the most devastating of circumstances and injustices."--Booklist.
