The American Revolution Have you struggled with finding good resources? This book contains 35 ready-made lessons for teachers to use in the classroom! This is the complete collection of Reading Through History's seven-part American Revolution series. It contains 35 readings centered around the years

leading up to America's War for Independence and the events that took place during the conflict. Each one-page reading also has student activities to accompany the material. The lessons include guided reading activities, true and false questions, vocabulary activities, student response essay questions, and multiple choice reading comprehension questions for each lesson. There is also a section word builder to wrap up the activities and two ready-made tests. This workbook has the materials any teacher would need to thoroughly cover the events and figures of the American Revolution. There is enough material to get you through 5-6 weeks of the school year. Topics covered in the material include: Table of Contents: Unit 1: The French and Indian War Pg. 1 Proclamation of 1763 Pg. 5 The Albany Plan of Union and Committees of Correspondence Pg. 9 The Stamp Act Pg. 13 The Stamp Act Repealed Pg. 17 Unit 2: The Townshend Acts Pg. 22 The Boston Massacre Pg. 26 The Boston Tea Party Pg. 30 The Intolerable Acts Pg. 34 First Continental Congress Pg. 38 The Road to Revolution Post Assessment Pg. 43 Unit 3: Lexington and Concord Pg. 47 Patriots and Loyalists Pg. 51 Second Continental Congress Pg. 55 Ticonderoga and Bunker Hill Pg. 59 The Two Sides Pg. 63 Unit 4: Canada and New York Pg. 68 Common Sense Pg. 72 The Committee of Five Pg. 76 Declaring Independence Pg. 80 The Declaration of Independence Pg. 84 Unit 5: Women in the Revolutionary War Pg. 89 The Leadership of George Washington Pg. 93 The Crisis Pg. 97 Victories in New Jersey Pg. 101 Saratoga Pg. 105 Unit 6: Help from France Pg. 110 African Americans in the Revolution Pg. 114 A Widening War Pg. 118 Valley Forge Pg. 122 John Paul Jones Pg. 126 Unit 7: The War in the South Pg. 131 Guerrilla Warfare Pg. 135 Benedict Arnold Pg. 139 The Battle of Yorktown Pg. 143 Treaty of Paris Pg. 147 American Revolution Post Evaluation Pg. 152

Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of people held their collective breath as the United States and the Soviet Union, two national ideological entities, waged proxy wars to determine spheres of influence—and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War—as a military event with sociopolitical and economic overtones—is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of *MHQ: The Quarterly Journal of Military History*. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados, in "The War Scare of 1983," shows just how close we were to escalating a war of words into a nuclear holocaust. Victor Davis Hanson offers "The Right Man," his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer's "The Berlin Tunnel," which details the charismatic C.I.A. operative "Big Bill" Harvey's effort to tunnel under East Berlin and tap Soviet phone lines—and the Soviets' equally audacious reaction to the plan; while "The Truth About Overflights," by R. Cargill Hall, sheds light on some of the Cold War's best-kept secrets. The often overlooked human cost of fighting the Cold War finds a clear voice in "MIA" by Marilyn Elkins, the widow of a Navy airman, who details the struggle to learn the truth about her husband, Lt. Frank C. Elkins, whose A-4 Skyhawk disappeared over Vietnam in 1966. In addition there are profiles of the war's "front lines"—Dien Bien Phu, the Cuban Missile Crisis, the Bay of Pigs—as well as of prominent military and civil leaders from both sides, including Harry S. Truman, Nikita Khrushchev, Dean Acheson, Gen. Douglas MacArthur, Richard M. Nixon, Gen. Vo Nguyen Giap, and others. Encompassing so many perspectives and events, *The Cold War* succeeds at an impossible task: illuminating and explaining the history of an undeclared shadow war that threatened the very existence of humankind.

The US-Soviet arms race, told through the story of a colorful and visionary American Air Force officer—melding biography, history, world affairs, and science to transport the reader back and forth from individual drama to world stage. "Compulsively readable and important." —The New York Times Book Review In this never-before-told story, Neil Sheehan—winner of the Pulitzer Prize and the National Book Award -- details American Air Force officer Bernard Schriever's quest to prevent the Soviet Union from acquiring nuclear superiority, and describes American efforts to develop the unstoppable nuclear-weapon delivery system, the intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

A thought-provoking and penetrating account of the post-Cold war follies and delusions that culminated in the age of Donald Trump from the bestselling author of *The Limits of Power*. When the Cold War ended with the fall of the Berlin Wall, the Washington establishment felt it had prevailed in a world-historical struggle. Our side had won, a verdict that was both decisive and irreversible. For the world's "indispensable nation," its "sole superpower," the future looked very bright. History, having brought the United States to the very summit of power and prestige, had validated American-style liberal democratic capitalism as universally applicable. In the decades to come, Americans would put that claim to the test. They would embrace the promise of globalization as a source of unprecedented wealth while embarking on wide-ranging military campaigns to suppress disorder and enforce American values abroad, confident in the ability of U.S. forces to defeat any foe. Meanwhile, they placed all their bets on the White House to deliver on the promise of their Cold War triumph: unequaled prosperity, lasting peace, and absolute freedom. In *The Age of Illusions*, bestselling author Andrew Bacevich takes us from that moment of seemingly ultimate victory to the age of Trump, telling an epic tale of folly and delusion. Writing with his usual eloquence and vast knowledge, he explains how, within a quarter of a century, the United States ended up with gaping inequality, permanent war, moral confusion, and

an increasingly angry and alienated population, as well, of course, as the strangest president in American history.

Unspoiled. Uninhabited. Under attack... On the wind-swept, ice-covered continent of Antarctica, Roger Gordian's UpLink Technologies has established a scientific research facility called Cold Corners. But its testing of potential robotic landing craft for use on Mars is disrupted when one of the rovers disappears—along with the repair team sent out after it. Fear of discovery has prompted a renegade consortium—that is illegally using Antarctica as a nuclear waste dump—to wipe out the UpLink base. Now, the men and women of Cold Corners have only themselves to rely on as the consortium mounts its decisive strike against the ice station—and the final sunset plunges them into the total darkness of a polar winter...

"Enthralling. . . . Lying and stealing and invading, it should be said, make for captivating reading, especially in the hands of a storyteller as skilled as Anderson." —The New York Times Book Review A NEW YORK TIMES NOTABLE BOOK OF THE YEAR At the end of World War II, the United States was considered the victor over tyranny and a champion of freedom. But it was clear—to some—that the Soviet Union was already seeking to expand and foment revolution around the world, and the American government's strategy in response relied on the secret efforts of a newly formed CIA. Chronicling the fascinating lives of the agents who sought to uphold American ideals abroad, Scott Anderson follows the exploits of four spies: Michael Burke, who organized parachute commandos from an Italian villa; Frank Wisner, an ingenious spymaster who directed actions around the world; Peter Sichel, a German Jew who outwitted the ruthless KGB in Berlin; and Edward Lansdale, a mastermind of psychological warfare in the Far East. But despite their lofty ambitions, time and again their efforts went awry, thwarted by a combination of ham-fisted politicking and ideological rigidity at the highest levels of the government. Told with narrative brio, deep research, and a skeptical eye, *The Quiet Americans* is the gripping story of how the United States, at the very pinnacle of its power, managed to permanently damage its moral standing in the world.

The first novel in a new Cold War fantasy series, where the Berlin Wall is made entirely of magic. When a breach unexpectedly appears in the wall, spies from both sides swarm to the city as World War III threatens to spark. AFTER THE WAR, THE WALL BROUGHT AN UNEASY PEACE. When Soviet magicians conjured an arcane wall to blockade occupied Berlin, the world was outraged but let it stand for the sake of peace. Now, after ten years of fighting with spies instead of spells, the CIA has discovered the unthinkable... THE WALL IS FAILING. While refugees and soldiers mass along the border, operatives from East and West converge on the most dangerous city in the world to either stop the crisis, or take advantage of it. Karen, a young magician with the American Office of Magical Research and Deployment, is sent to investigate the breach in the Wall and determine if it can be fixed. Instead, she discovers that the truth is elusive in this divided city--and that even magic itself has its own agenda. THE TRUTH OF THE WALL IS ABOUT TO BE REVEALED.

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

Here is the story of political prisoners finally freed in December 2014, after being held captive by the United States since the late 1990s. Through the 1980s and 1990s, violent anti-Castro groups based in Florida carried out hundreds of military attacks on Cuba, bombing hotels and shooting up Cuban beaches with machine guns. The Cuban government struck back with the Wasp Network—a dozen men and two women—sent to infiltrate those organizations. *The Last Soldiers of the Cold War* tells the story of those unlikely Cuban spies and their eventual unmasking and prosecution by US authorities. Five of the Cubans received long or life prison terms on charges of espionage and murder. Global best-selling Brazilian author Fernando Morais narrates the riveting tale of the Cuban Five in vivid, page-turning detail, delving into the decades-long conflict between Cuba and the US, the growth of the powerful Cuban exile community in Florida, and a trial that eight Nobel Prize winners condemned as a travesty of justice. *The Last Soldiers of the Cold War* is both a real-life spy thriller and a searching examination of the Cold War's legacy.
