Episodic memory This is needed to recall past events — recent or distant. You use episodic memory when you remember personal experiences, such as what you had for lunch or when you attended a family gathering. These memories often include recalling emotions or feelings.

The memory handbook - Alzheimer's Society

Working memory refers to the temporary retention of information that has just arrived to the senses or been retrieved from long-term memory. Although internal representations of external stimuli have a natural tendency to decay, they can be kept " in mind " through the action of maintenance or rehearsal strategies, and can be subjected to various operations that manipulate information in the ...
