As public interest in modern art continues to grow, as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim, there is a real need for a book that will engage general readers, offering them not only information and ideas about modern art, but also explaining its contemporary relevance and history. This book achieves all this and focuses on interrogating the idea of 'modern' art by asking such questions as: What has made a work of art qualify as modern (or fail to)? How has this selection been made? What is the relationship between modern and contemporary art? Is 'postmodernist' art no longer modern, or just no longer modernist - in either case, why, and what does this claim mean, both for art and the idea of 'the modern'? Cottington examines many key aspects of this subject, including the issue of controversy in modern art, from Manet's *Dejeuner sur L'Herbe* (1863) to Picasso's *Les Femmes d'Alger* (O.J.) (1911), and Tracey Emin's *My Bed*, (1999); and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi. collections today Provenance is the extraordinary narrative of one of the most far-reaching and elaborate deceptions in art history. Investigative reporters Laney Salisbury and Aly Sujo brilliantly recount the tale of a great con man and unforgettable villain, John Drewe, and his sometimes unwitting accomplices. Chief among those was the struggling artist John Myatt, a vulnerable single father who was manipulated by Drewe into becoming a prolific art forger. Once Myatt had painted the pieces, the real fraud began. Drewe managed to infiltrate the archives of the upper echelons of the British art world in order to fake the provenance of Myatt's forged pieces, hoping to irrevocably legitimize the fakes while effectively rewriting art history. The story stretches from London to Paris to New York, from tony Manhattan art galleries to the esteemed Giacometti and Dubuffet associations, to the archives at the Tate Gallery. This enormous swindle resulted in the introduction of at least two hundred forged paintings, some of them breathtakingly good and most of them selling for hundreds of thousands of dollars. Many of these fakes are still out in the world, considered genuine and hung prominently in private houses, large galleries, and prestigious museums. And the sacred archives, undermined by John Drewe, remain tainted to this day. Provenance reads like a well-plotted thriller, filled with unforgettable characters and told at a breakneck pace. But this is most certainly not fiction; Provenance is the meticulously researched and captivating account of one of the greatest cons in the history of art forgery.

The roots of Modern Art can be seen in the wild paintings of Turner, but it took the Impressionists and the Pre-Raphaelites to break the classical mode until the final blows were dealt by Kandinsky, Klee and Picasso. Once unleashed modernism fragmented into many different forms, each of which are explored in this powerful, illustrated new book.

His book doesn't tell us if a work of art is good; it gives us the knowledge to decide for ourselves.

This handsomely illustrated volume traces the intersections of art history and paintings restoration in nineteenth-century Europe. Repairing works of art and writing about them—the practices that became art conservation and art history—share a common ancestry. By the nineteenth century the two fields had become inseparably linked. While the art historical scholarship of this period has been widely studied, its restoration practices have received less scrutiny—until now. This book charts the intersections between art history and conservation in the treatment of Italian Renaissance paintings in nineteenth-century Europe. Initial chapters discuss the restoration of works by Giotto and Titian, framed by the contemporary scholarship of art historians such as Jacob Burckhardt, G. B. Cavalcaselle, and Joseph Crowe that was redefining the earlier age. Subsequent chapters recount how paintings conservation was integrated into museum settings. The narrative uses period texts, unpublished archival materials, and historical photographs in probing how paintings looked at a time when scholars were writing the foundational texts of art history, and how contemporary restorers were negotiating the appearances of these works. The book proposes a model for a new conservation history, object focused yet enriched by consideration of a wider cultural horizon.

Over 200 paintings, sculptures, photographs, and conceptual pieces trace the story of modern art's innovation and adventure. With explanatory texts for each work, and essays introducing each of the major modern movements, this is an authoritative overview of the ideas and the
