and receiving information among people. Humans communicate with others not only by face-to-face communication, but also by giving information via the Internet and printed products such as books and newspapers. Many people believe that the significance of communication is like the importance of breathing.

Symbolism, or semiotics as it's known in technical circles, plays such a large part in human communication because people are constantly looking for deeper meaning. Whether it's in the stars, drawn on a cave wall or in the newest visual content, we add such meaning to our communication through the use and interpretation of signs.
