The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards; Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The popularity of The Seven Deadly Sins dates back to the 4th Century. They enjoyed tremendous notoriety during the period we call the Middle Ages. While the popular assortment of sins is not directly from scripture, they have been the subject of many a sermon, lecture, writing and art. In his book The Seven Deadly Sins: And Why We Love Them, Steinbacher examines each in detail. He gives examples of how they effect us and how we conduct ourselves in this world. Included in this book is Steinbacher's essay, An Angel In My Garden.

Viola doesn't want to go to boarding school, but somehow she ends up at Prefect Academy, an all-girls school in South Bend, Indiana, far faraway from her home in Brooklyn, New York. Now Viola is stuck for a whole year in what seems to be the sherbet-coloured-sweater capital of the world. Lck. There's no way Viola's going to survive the year - especially since she has to replace her BFFAA (best friend forever and always) Andrew with three new roommates who, disturbingly, actually seem to like being at Prefect. She resorts to viewing the world (and hiding) behind the lens of her video camera. But boarding school, her roommates and even Indiana, are nothing like Viola thought they would be, and she soon realises that she may be in for the most incredible year of her life. But first she has to put the camera down and let the world in.

Fascination with quotidian experience in modern art, literature, and philosophy promotes ecstatic forms of reflection on the very structure of the everyday world. Gosetti-Ferencei examines the ways in which modern art and literature enable a study of how we experience quotidian life. She shows that modernism, while exhibiting many strands of development, can be understood by investigating how its attentions to perception and expectation, to the common quality of things, or to childhood play gives way to experiences of ecstasis&—the stepping outside of the ordinary familiarity of the world. While phenomenology grounds this study (through Husserl, Heidegger, Merleau-Ponty, and Bachelard), what makes this book more than a treatise on phenomenological aesthetics is the way in which modernity itself is examined in its relation to the quotidian. Through the works of artists and writers such as Benjamin, C&ézanne, Frost, Klee, Newman, Pollock, Ponge, Proust, Rilke, Robbe-Grillet, Rothko, Sartre, and Twombly, the world of quotidian life can be seen to harbor a latent ecstasis. The breakdown of the quotidian through and after modernism then becomes an urgent question for understanding art and literature in its capacity to further human experience, and it points to the limits of phenomenological explications of the everyday.
