Legal Reasoning Models. C.D. Hafner, in International Encyclopedia of the Social & Behavioral Sciences, 2001. Research in legal reasoning models investigates formal and computational theories of how legal experts analyze problems, create arguments, and make decisions. Rule-based legal expert systems using logical inference techniques have been developed and used successfully in a number of legal domains, especially those dominated by complex regulations such as taxation and social benefits ...

This chapter presents a response to Neil McCormick's paper, which analysed the nature of legal reasoning and the possibility of developing legal expert systems. It attempts to restate some of the problems raised in the paper in more precise terms. As a result of this reformulation, certain disagreements will no doubt come to light. The chapter presents an account that differs from ...

The logic of legal reasoning studies the patterns of legal language that legal professionals generally regard as appropriate. The study of legal logic is the study of the appropriate use of legal language. Legal language and reasoning, moreover, are evolving, as we adapt them to solve new legal problems.

[DISCOVERING THE LOGIC OF LEGAL REASONING](#)

As the logical aspect of legal reasoning focuses attention on legal rules and on the principles to be derived from decisions in analogous cases, so the rhetorical aspect of legal reasoning focuses attention on legal activities. As many writers have emphasized, law itself is not simply, or primarily, a body of rules but an activity, an enterprise.

[Legal Reasoning | Encyclopedia.com](#)

Legal reasoning is a method of thought and argument used by lawyers and judges when applying legal rules to specific interactions among legal persons. Legal reasoning in the case of a court's ruling is found in the 'Discussion or Analysis' section of the judicial ruling. It is here that the court gives reason for its legal ruling, and it helps other courts, lawyers and judges to use and follow the ruling in subsequent proceedings.

And just as law was considered a science, legal reasoning was considered to be a species of deductive logic. However, it is now recognized that the purpose of legal reasoning is not to prove to others the truth of a statement of fact, but is rather to persuade others about how the law ought to be interpreted and applied.

Introduction. This handbook addresses legal reasoning and argumentation from a logical, philosophical and legal perspective. The main forms of legal reasoning and argumentation are covered in an exhaustive and critical fashion, and are analysed in connection with more general types (and problems) of reasoning. Accordingly, the subject matter of the handbook divides in three parts.
