For Mack engines, there are two things we typically ask customers for to help us ensure they're ordering the right parts your engine serial number or your VIN number. The most popular Mack engine serial number we deal with begins with "11GBA" and is followed by a string of 6 numbers and letters that help make it distinct.

This is the Mack VIN decoder. Every Mack car has a unique identifier code called a VIN. This number contains vital information about the car, such as its manufacturer, year of production, the plant it was produced in, type of engine, model and more. For instance, if someone wants to buy a car, it is possible to check the VIN number on the online database to ensure that the car was not stolen, damaged or illegally modified.
