A novel set in the backstreets of Medellin, Colombia, captures the lives of the beggars, thieves, drug addicts, and other lost souls of a city overwhelmed by the drug trade.

A sweeping study of political murder in Latin America. This sweeping history depicts Latin America's pan-regional culture of political murder. Unlike typical studies of the region, which often focus on the issues or trends of individual countries, this work focuses thematically on the nature of political murder itself, comparing and contrasting its uses and practices throughout the region. W. John Green examines the entire system of political murder: the methods and justifications the perpetrators employ, the victims, and the consequences for Latin American societies. Green demonstrates that elite and state actors have been responsible for most political murders, assassinating the leaders of popular movements and other messengers of change. Latin American elites have also often targeted the potential audience for these messages through the region's various "dirty wars." In spite of regional differences, elites across the region have displayed considerable uniformity in justifying their use of murder, imagining themselves in a class war with democratic forces. While the United States has often been complicit in such violence, Green notes that this has not been universally true, with US support waxing and waning. A detailed appendix, exploring political murder country by country, provides an additional resource for readers.

El terrorismo como profesión, cultura y modo de vida y muerte. Sangre y rabia arroja nueva luz sobre la amenaza mundial del terrorismo, que previsiblemente seguirá atormentándonos durante las próximas décadas. El historiador Michael Burleigh se centra en las acciones y en la historia de vida de los terroristas, y no tanto en la ideología que está detrás de sus motivaciones. Este libro aborda el terrorismo como profesión, como cultura y como modo de vida y muerte, aspectos de la situación que suelen desatenderse. Burleigh nos lleva más allá de las enrevesadas justificaciones morales y destapa la realidad -unas veces miserable, otras sobrecogedora y otras sencillamente criminal- del terrorismo moderno, desde sus orígenes en el nacionalismo irlandés, los revolucionarios rusos y los anarquistas internacionales, hasta las diferentes campañas terroristas que acompañaron a la descolonización. La actividad de grupos de extrema izquierda como la banda Baader-Meinhof o las Brigadas Rojas fue efímera en comparación con la lucha terrorista nacionalista llevada a cabo por ETA o el IRA, que a su vez han sido eclipsados por la violencia yihadista internacional. El alcance panorámico del libro nos recuerda que todos los habitantes del mundo civilizado, desde Argel y El Cairo hasta Yakarta o Singapur, están juntos en esta larga guerra entre civilizaciones y en este caos.

"Hello beautiful. I am Popeye." In 1998 I met Jhon Jairo Velásquez Velásquez—alias "Popeye"—lieutenant to the Medellín Cartel's leader, Pablo Escobar Gaviria. Our first encounter was at the high security yard of the Modelo Prison in Bogotá, Colombia. I visited the prison frequently as a journalist for RCN TV. I was always conducting interviews and speaking to the inmates, uncovering news about what was really happening inside the prison. At that time, stories about confrontations between guerrilla and paramilitary factions were everyday news. You could often hear shots inside the prison as the different sides fought for control. I had always wanted to meet one of the members of the Medellín Cartel. I was curious to know who they were, what they looked like, and what these men, who belonged to the most powerful drug cartel that has ever existed in Colombia, were thinking. At the high security yard I was able to talk with two of them. The most notorious was Jhon Jairo Velásquez Velásquez. "Hello beautiful. I am Popeye." The man who sat in front of me stared at me. His pale skin reflected the six years he had been in prison; in fact, it looked as if he had never once stepped outside. Popeye smiled at me with curiosity while his cold eyes examined me from head to toe. We were introduced by another inmate, Ángel Gaitán Mahecha, a man accused of paramilitarism and homicide. My first impression was surprise and curiosity; I also examined him from head to toe. He wasn't quite six feet tall. His slim body and the smile on his face almost put me at ease. I thought this man couldn't possibly frighten anyone, and yet I couldn't forget the number of homicides in which he had been involved. I wanted to see into the mind of the man who planned and participated in the most horrible homicides that the cartel had carried out in their war against the state.

Killing Pablo is the story of the fifteen-month manhunt for Colombian cocaine cartel kingpin Pablo Escobar, whose escape from his lavish, mansionlike jail drove a nation to the brink of chaos. In a gripping, up-close account, acclaimed journalist Mark Bowden exposes the never-before-revealed details of how U.S. military and intelligence operatives covertly led the mission to find and kill the world's most dangerous outlaw. Drawing on unprecedented access to the soldiers, field agents, and officials involved in the chase, as well as hundreds of pages of top-secret documents and transcripts of Escobar's intercepted phone conversations, Bowden creates a narrative that reads as if it were torn from the pages of a Tom Clancy techno-thriller. Killing Pablo also tells the story of Escobar's rise, how he built a criminal organization that would hold an entire nation hostage -- and the stories of the intrepid men who would ultimately bring him down. There is Steve Jacoby, the leader of Centra Spike, the ultrasecret U.S. special forces team that would use cutting-edge surveillance technology to find one man among a nation of 37 million. There is Morris Busby, U.S. ambassador to Colombia, who would convince the Bush administration to approve the deployment of the shadowy Delta Force operators who would be the key to the drug lord's demise. And there is Escobar's archenemy, Col. Hugo Martínez, the leader of Colombia's federal police, who would turn down a \$6 million bribe, survive countless attempts on his life, and endure a humiliating exile while waging his battle against the drug lord's criminal empire. It was Martínez's son, raised in the shadow of constant threat from Escobar's followers, who would ultimately track the fugitive to a Bogotá rooftop on the fateful day in 1993 when the outlaw would finally meet his end. Action-packed and unputdownable, Killing Pablo is a tour de force of narrative journalism and a stark portrayal of rough justice in the real world.
