This work provides comprehensive and contemporary information on the essential concepts and terms in video and television, including coverage of test and measurement procedures.

Study more effectively and improve your performance at exam time with this comprehensive guide. Written to work hand-in hand with DISCOVERING COMPUTERS 2011: COMPLETE, 1st Edition, this user-friendly guide includes a wide variety of learning tools to help you master the key concepts of the course.

A dynamic, comprehensive approach to basic through intermediate computer concepts. Known for its readability and the depth of topics covered, this book also includes an interactive Web site, which contains Web Tutors, Further Explorations, and links to NEW TechTV video projects!

After being summoned to a new world and thrown down into the depths of hell, Hajime Nagumo met Yue and together they conquered the Great Orcus Labyrinth. The pair was planning on taking it easy on the surface for a little bit, but a meeting with the bunny girl Shia Haulia throws a wrench into those plans. She has the peculiar power to see the future, and according to her, Hajime's the one saving her family in her visions! Hajime was planning on refusing, but it appears she might be able to help him on his quest to return home. And so, the adventure continues in Reisen Gorge.

Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center

Since 1997 Jim Taylor's online DVD FAQ has been the most current and complete source of information on this rapidly growing technology, and visitors to the site have been clamoring for a print version. And here it is! Everything You Ever Wanted to Know About DVD is the most comprehensive, quick look-up guide to DVD facts, figures, and formats available anywhere. Questions are answered clearly, succinctly, by one of the leading figures in the DVD community. The book is broken into five major sections: \* General DVD information \* DVD's relationship to other products and technologies \* DVD technical details \* DVDs and the computer \* DVD production Complete with photos and tables not part of the online version, Everything You Wanted to Know About DVD describes and explains every DVD Video and Audio format and covers: \* How to run DVD on any type of computer \* Easter Egg Essentials \* Why some discs don't work in all players (and which ones they will work in) \* DVD/CD-ROM/CD-RW/Super Video CD compatibility \* DVD Video and Audio outputs \* Video hook-up options \* Audio hook-up options \* Where to find DVD hardware, software, and technical support \* Authoring basics \* Production basics

The SAT II Subject Tests are created and administered by the College Board and the Educational Testing Service (ETS), the two organizations responsible for producing the SAT I (the SAT). The SAT II Subject Tests are meant to complement the SAT I. Whereas the SAT I tests your critical thinking skills by asking math and verbal questions, the SAT II Subject Tests examine your knowledge of a particular subject, such as Writing, U.S. History, Physics, or Biology. The SAT I takes three hours; the Subject Tests take one hour.
