Not a day passes without political discussion of immigration.

Reception of immigrants, their treatment, strategies seeing to their inclusion, management of migration flows, limitation of their numbers, the selection of immigrants; all are ongoing dialogues. European Societies, Migration, and the Law shows that immigrants, regardless of their individual status, their different backgrounds, or their different histories and motivations to move across borders, are often seen as 'the other' to the imaginary society of nationals making up the receiving (nation-)states. Politically sensitive and economically important, welfare services such as health care, health insurance and education have opened up a heated debate in the EU. The application of EU law to welfare services raises discontent from the part of the Member States who perceive their systems to be under threat. The approach taken in analysing the impact of EU law on welfare services is to look at the negative integration process and answer the questions related to the extent to

particular, are major beneficiaries of State aid. This book provides a comprehensive analysis of the law regulating State aids to airlines, which includes sections on Articles 107 TFEU and 108 TFEU as well as an overview of legal issues raised by air transport and competition in the EU, in particular deregulation and its consequences. EU Law on State Aid to Airlines follows a multi-disciplinary approach by relying on the fundamental concepts of economics and policy analysis. This approach allows grasping the wider implications of this sector's issues for the field of State Aid, in particular in the light of the 'more economic approach' and the 'balancing test'. Furthermore, additional perspective is given on State aid law in the air transport sector through comparative analyses of regulations in the United States and Switzerland and outlooks on international relations. Finally, the book presents a number of recent Commission decisions with a dramatic
