Every element in this family has one valence electron that they will lose in order to achieve a pseudo-noble gas configuration. In order to complete this quiz, you will need access to a periodic table. Select the best answer from the choices. Good luck. Group: Chemistry Chemistry Quizzes : Topic: The Periodic Table

The Periodic Table | The Periodic Table | Alkali Metals Quiz

The periodic table is often considered to be the "best friend" of chemists and chemistry students alike. It includes information about atomic masses and element symbols, but it can also be used to make predictions about atomic size, electronegativity, ionization energies, bonding, solubility, and reactivity. In this activity you will look at a few periodic trends that can help you make those predictions.
