micro to macro continuum, moving from chapters on cognitive processes, the individual, and theories of persuasion to chapters highlighting broader social factors and phenomena related to persuasion, such as social context and larger scale persuasive campaigns. Each chapter identifies key challenges to the area and lays out research strategies for addressing those challenges.

The acclaimed New York Times and Wall Street Journal bestseller from Robert Cialdini— “ the foremost expert on effective persuasion ” (Harvard Business Review)—explains how it ’ s not necessarily the message itself that changes minds, but the key moment before you deliver that message. What separates effective

communicators from truly successful persuaders? With the same rigorous scientific research and accessibility that made his *Influence* an iconic bestseller, Robert Cialdini explains how to prepare people to be receptive to a message before they experience it. Optimal persuasion is achieved only through optimal pre-suasion. In other words, to change “minds” a pre-suader must also change “states of mind.” Named a “Best Business Books of 2016” by the Financial Times, and “compelling” by The Wall Street Journal, Cialdini’s *Pre-Suasion* draws on his extensive experience as the most cited social psychologist of our time and explains the techniques a person should implement to become a master persuader. Altering a listener’s attitudes, beliefs, or experiences isn’t necessary, says Cialdini—all that’s required is for a communicator to redirect the audience’s focus of attention before a relevant action. From studies on advertising imagery to treating opiate

addiction, from the annual letters of Berkshire Hathaway to the annals of history, Cialdini outlines the specific techniques you can use on online marketing campaigns and even effective wartime propaganda. He illustrates how the artful diversion of attention leads to successful pre-suasion and gets your targeted audience primed and ready to say, “ Yes. ” His book is “ an essential tool for anyone serious about science based business strategies...and is destined to be an instant classic. It belongs on the shelf of anyone in business, from the CEO to the newest salesperson ” (Forbes).

Most people have to communicate with colleagues every day and persuade them to understand their opinions or to accept their views.

This handbook is intended for anyone who is interested in such goal-oriented language. It extracts 300 persuasive tactics from research findings in communication, linguistics, pragmatics and related fields, and presents them in a clear, concise and consistent manner. Such tactics as analogy, argument presentation, humour and metaphor are included. Each tactic is presented on a separate page with an analysis of its persuasive value. Two indexes - one by persuasive need and the other by tactic - allow readers full flexibility to use the handbook in their own way. This work should be of interest in courses which deal with the management of interaction, pragmatics, discourse analysis and communications.

Vienna, 1909. When the celebrated actor Eugen Bischoff is found dead in his garden pavilion, suspicion falls immediately on Baron von

Yosch, a well-to-do army officer who was once the lover of the dead man's wife. By all appearances the door was locked from the inside when the two shots rang out the actor took his own life, but someone, or something, drove him to it. The baron sets out to learn all he can about the actor's death in order to clear his name. Meanwhile, within a few days, similar apparent suicides are reported. What started out as a straightforward quest to establish Bischoff's last deeds and discover the truth of his death becomes a search through the ages for an invisible enemy identified only by the actor's dying breath, when he whispered: . . . the Day of Judgment. Leo Perutz combines his hallmark blend of suspense and the fantastic in this spine-tingling mystery.

Elections are the means by which democratic nations determine their leaders, and communication in the context of elections has the

potential to shape people's beliefs, attitudes, and actions. Thus, electoral persuasion is one of the most important political processes in any nation that regularly holds elections. Moreover, electoral persuasion encompasses not only what happens in an election but also what happens before and after, involving candidates, parties, interest groups, the media, and the voters themselves. This volume surveys the vast political science literature on this subject, emphasizing contemporary research and topics and encouraging cross-fertilization among research strands. A global roster of authors provides a broad examination of electoral persuasion, with international perspectives complementing deep coverage of U.S. politics. Major areas of coverage include: general models of political persuasion; persuasion by parties, candidates, and outside groups; media influence; interpersonal influence; electoral persuasion across contexts; and empirical
