Combat Handgun Secret #1: The Power Stance . In true combat handgun training, as opposed to recreational shooting, you are preparing for a fight. This means you should be in a fighting stance. Balance and mobility can never be compromised in a fight. Accordingly, your primary shooting stance should be a fighttight stance. When the body has to become a fighting machine, the legs and feet become its foundation.

Best-selling author Gabe Suarez provides a graduate-level course in shooting with lightning speed and dead on target during the intensity of an actual gun battle. In Tactical Pistol Marksmanship, Suarez revisits some of the topics in the classic book The Tactical Pistol and presents even more gun-handling techniques, different twists on basic skills and unique tricks to help fine-tune how you aim and fire a gun under stress. Just some of the topics he covers are the primary requirements for the ideal service pistol according to combat vets; the rule of thumb for choosing a serious combat caliber; the 4 most important fundamentals of combat marksmanship; secrets to shooting in extremely low light situations when even tritium sights are of no use; the solutions to emergency failure-to-stop situations; and practical drills you can perform safely at home.

In his day, Chic Gaylord was the "top gun" in the world of combat shooting, enjoying a reputation as one of the fastest and most accurate shooters around. This Paladin collector's edition of Handgunner's Guide is a faithful reproduction of his 1960 classic that revolutionized the holster industry (even today Gaylord is considered the premiere designer of modern concealment holsters) and, to a great extent, changed the way we view tactics and techniques to survive and win a gunfight. Although some of the weapons discussed in this book are no longer available, a surprising amount of the information is still as tactically sound and relevant today as it was 40 years ago when used by a wide variety of U.S. federal and local law enforcement agencies and several European and Latin American countries to train their elite shooters. This release is intended to provide an accurate account of Chic Gaylord's genius and his craft and to perpetuate it for new generations of shooters.

"Drawing on Combat experiences from Mogadishu, Somalia to Mosul, Iraq, I want to pass lessons learned to fellow Warriors. Common sense and combat proven, these are the criteria for my techniques. This book is intended to enhance your shooting skills and refine the tactical employment of your Combat Pistol. Military, Law Enforcement, and Civilian alike will find a wealth of information, and numerous tools for their Tactical Toolbox. We also discuss the Training Mentality and Mindset that will help you not only survive your next gunfight, but thrive."-Cover

Combat Shooting with Massad Ayoob is written by America's best-known combat pistol shooter, Massad Ayoob, who is credited with the idea of "stress fire." In this book, Massad speaks about mindset and jumps right into the aspects of learning combat shooting. Next, he highlights three gunfighters—Wyatt Earp, Colonel Charles Askins and Jim Cirillo—and the lessons we can learn from each. Lastly, Ayoob shares his perspective on the importance of competition as training before closing with a discussion of the choices involved in being responsibly armed.

This consolidated, easy-to-read handbook provides a base knowledge that offers laymen and/or professional operators the references to learn/maintain their skills with their pistol, thus raising their level of safety and competence. Whether you carry a pistol for living or for defense, this book will help you attain the level of training desired.

"Owning a handgun doesn't make you armed any more than owning a guitar makes you a musician." - Jeff CooperCall for a pizza, a cop, and an ambulance and see which one arrives first.In Warren v. District of Columbia the court ruled, and the Supreme Court upheld, that " (T)he desire for condemnation cannot satisfy the need for a special relationship out of which a duty to specify persons arises. " Because the complaint did not allege a relationship " beyond that found in general police responses to crimes, " the court affirmed the dismissal of the complaint for failure to state a claim. The bottom line is that your local police are not legally obligated to protect you, the average citizen. In addition to the Warren case, there are hundreds of court rulings which state that cops are not legally responsible for protecting individual citizens. For example, see Zelig v. County of Los Angeles,The government can't protect you as you saw on September 11, 2001 as well as during the Washington, DC area " sniper " rampage. In fact, the government could very well be our greatest fear, due to its propensity to murder people because of their ideas (See Ruby Ridge, ID and Waco, TX). A simple internet or youtube.com search of " the police state " or " police brutality " will reveal literally thousands of violent crimes (from assault to cold blooded murder) committed by the State's costumed emissaries of officially sanctioned violence (aka The Police State) against harmless and innocent people.So, who does that leave to protect you, your life, property and family?The one and only answer is: YOU!It is your duty and personal responsibility to protect yourself and your loved ones. This responsibility is a natural right given to us by God as human beings and guaranteed to us as individuals by the Constitution of the United States of America. This Handbook is intended to help you exercise that right and meet that responsibility. It begins with safety, always the primary consideration in any training scenario. No war was ever won by shooting the good guys. It then takes up where all firearms training should begin—with basic, open sighted rifle marksmanship on a known distance range. This chapter follows the US Marine Corps' Marksmanship Manuals very closely. It fully reveals the training techniques that have made US Marines the most accomplished marksmen of all the military organizations on the face of the earth. After mastering these " fundamentals, " the reader/trainee is ready to be introduced to the basic principles of Combat Shooting including threat assessment, the hierarchy of survival principles (combat mindset) and principles of training. Then separate chapters cover the fine points of combat rifle (carbine), combat shotgun and combat pistol technique.It then wraps up with a final chapter covering advanced combat applications, training techniques and drills. Remember, train like you fight-fight like you train. Train hard. Be safe. Stay low. Watch your six and come home alive and God bless. Options for Homeland Defense, Inc. (Protecting Liberty through Private Firearms Ownership) offers professional weapons and tactics training that will make the difference. Instructed by experienced combat veterans—guys that have " been there and done that. " It offers private instruction at its privately owned range and mobile training teams are available.
