Ansel Adams (1902-1984) produced some of the 20th century's most iconic photographic images and helped nurture the art of photography through his creative innovations and peerless technical mastery. The Camera--the first volume in Adams' celebrated series of books on photographic techniques--has taught generations of photographers how to harness the camera's artistic potential. This time-honored handbook distills the knowledge gained through a lifetime in photography and remains as vital today as when it was first published. Along with visualization, image management, Adams' famous Zone System, and other keys to photographic artistry, The Camera covers 35mm, medium-format, and large-format view cameras, while offering detailed advice on camera components such as lenses, shutters, and light meters. Beautifully illustrated with photographs as well as instructive line drawings, this classic manual belongs on every serious photographer's bookshelf. "Adams is a clear-thinking writer whose concepts cannot but help the serious photographer." - New York Times "A master-class kind of guide from an undisputed master." - Publishers Weekly Over 1 million copies sold. Publisher's Note: This ebook of The Camera works best as a digital companion to the print edition. The ebook was produced by electronically scanning and digitizing a print edition, and as a result, your reading device may display images with halftone or moiré patterns.

INSIDE APPLE reveals the secret systems, tactics and leadership strategies that allowed Steve Jobs and his company to churn out hit after hit and inspire a cult-like following for its products. If Apple is Silicon Valley's answer to Willy Wonka's Chocolate Factory, then author Adam Lashinsky provides readers with a golden ticket to step inside. In this primer on leadership and innovation, the author will introduce readers to concepts like the "DRI" (Apple's practice of assigning a Directly Responsible Individual to every task) and the Top 100 (an annual ritual in which 100 up-and-coming executives are tapped a la Skull & Bones for a secret retreat with company founder Steve Jobs). Based on numerous interviews, the book offers exclusive new information about how Apple innovates, deals with its suppliers and is handling the transition into the Post Jobs Era. Lashinsky, a Senior Editor at Large for Fortune, knows the subject cold: In a 2008 cover story for the magazine entitled The Genius Behind Steve: Could Operations Whiz Tim Cook Run The Company Someday he predicted that Tim Cook, then an unknown, would eventually succeed Steve Jobs as CEO. While Inside Apple is ostensibly a deep dive into one, unique company (and its ecosystem of suppliers, investors, employees and competitors), the lessons about Jobs, leadership, product design and marketing are universal. They should appeal to anyone hoping to bring some of that Apple magic to their own company, career, or creative endeavor.

A guide to landscape photography using a DSLR camera covers such topics as light, composition, perspective, lenses, black-and-white images, and HDR.

THREE DECADES. TWO MURDERS. ONE CONSPIRACY. WHO IS AGENT 6? Tom Rob Smith's debut, Child 44, was an immediate publishing sensation and marked the arrival of a major new talent in contemporary fiction. Named one of top 100 thrillers of all time by NPR, it hit bestseller lists around the world, won the CWA Ian Fleming Steel Dagger Award and the ITW Thriller Award for Best First Novel, and was longlisted for the Man Booker Prize. In this spellbinding new novel, Tom Rob Smith probes the tenuous border between love and obsession as Leo Demidov struggles to untangle the threads of a devastating conspiracy that shatters everything he holds dear. Deftly capturing the claustrophobic intensity of the Cold War-era Soviet Union, it's at once a heart-pounding thriller and a richly atmospheric novel of extraordinary depth.... AGENT 6 Leo Demidov is no longer a member of Moscow's secret police. But when his wife, Raisa, and daughters Zoya and Elena are invited on a "Peace Tour" to New York City, he is immediately suspicious. Forbidden to travel with his family and trapped on the other side of the world, Leo watches helplessly as events in New York unfold and those closest to his heart are pulled into a web of political conspiracy and betrayal--one that will end in tragedy. In the horrible aftermath, Leo demands only one thing: to investigate the killer who destroyed his family. His request is summarily denied. Crippled by grief and haunted by the need to find out exactly what happened on that night in New York, Leo takes matters into his own hands. It is a quest that will span decades, and take Leo around the world--from Moscow, to the mountains of Soviet-controlled Afghanistan, to the backstreets of New York--in pursuit of the one man who knows the truth: Agent 6.
