Temporalis muscle and fascia flap
in treatment of TMJ ...

Introduction. The temporalis muscle flap has limited utility in the routine reconstruction of head and neck defects. The use of this flap has been commonly associated

Get Free Temporalis
Muscle And Fascia Flap In
Treatment Of Traj Ankylosis
with the reconstruction of
maxillectomy defects. The use of
the temporalis for these defects
has significantly diminished over
the past two decades as the role of
microvascular flaps have become
the mainstay for reconstruction of
maxillectomy defects.
