The Black Family in Slavery and Freedom, 1750-1925 is a book by Herbert G. Gutman that addresses the impact of slavery on black families. It is based on research that Gutman conducted over the course of the decade since the Moynihan Report, which revived the "tangle of pathology" thesis; the claim that black families in the US were incapable of functioning in a healthy way, a rationale previously rejected by critics as racist.

Graziella Bertocchi, Arcangelo Dimico 12 June 2020. The Covid-19 outbreak and the murder of George Floyd have dramatically exposed the racial inequalities in US society. This column studies the association between the historical experience of slavery and the African American family structure. Results indicate that the extreme demographic conditions prevailing among slaves on sugar plantations in the US South may have persistently shaped African American family formation.
