many rare forms. Acquired by Mrs. Lamot du Pont Copeland over the past fifty years, each of these beautifully modeled human and animal figures testifies to the unerring eye of a premiere collector. The majority of these figures are of porcelain, produced during the late seventeenth to the late eighteenth centuries, principally for export to the West. Each individual piece displays the meticulous artistry, the marvelous enameling, and the animation and wit characteristic of this remarkably innovative period in ceramic history. However modest in scale, many are important works of art.--Amazon.com.

In *Navigating History: Economy, Society, Knowledge, and Nature* the contributors present new research that touches on the core themes developed in Karel Davids's work. Major themes include resources of knowledge, cultures of learning, and humans and their natural environment. Together, these fourteen essays provide a fascinating panorama of social, economic, and environmental history of the past millennium.

Monks in Glaze is a complete reassessment of the Yixian Luohans. Drawing upon hitherto-unknown epigraphic documents, Eileen Hsiang-ling Hsu proposes a new date for the group's production and identifies the kiln centre near Beijing as its birthplace.

Traveling from East to West over thousands of years, tea has played a variety of roles on the world scene – in medicine, politics, the arts, culture, and religion. Behind this most serene of beverages, idolized by poets and revered in spiritual practices, lie stories of treachery, violence, smuggling, drug trade, international espionage, slavery, and revolution. Liquid Jade's rich narrative history explores tea in all its social and cultural aspects. Entertaining yet informative and extensively researched, Liquid Jade tells the story of western greed and eastern bliss. China first used tea as a remedy. Taoists celebrated tea as the elixir of immortality. Buddhist Japan developed a whole body of practices around tea as a spiritual path. Then came the traumatic encounter of the refined Eastern cultures with the first Western merchants, the trade wars, the emergence of the ubiquitous English East India Company. Scottish spies crisscrossed China to steal the secrets of tea production. An army of smugglers made fortunes with tea deliveries in the dead of night. In the name of "free trade" the English imported opium to China in

## Read Online The Copeland Collection Chinese And Japanese Ceramic Figures

exchange for tea. The exploding tea industry in the eighteenth century reinforced the practice of slavery in the sugar plantations. And one of the reasons why tea became popular in the first place is that it helped sober up the English, who were virtually drowning in alcohol. During the nineteenth century, the massive consumption of tea in England also led to the development of the large tea plantation system in colonial India – a story of success for British Empire tea and of untold misery for generations of tea workers. Liquid Jade also depicts tea's beauty and delights, not only with myths about the beginnings of tea or the lovers' legend in the familiar blue-and-white porcelain willow pattern, but also with a rich and varied selection of works of art and historical photographs, which form a rare and comprehensive visual tea record. The book includes engaging and lesser-known topics, including the exclusion of women from seventeenth-century tea houses or the importance of water for tea, and answers such questions as: "What does a tea taster do?" "How much caffeine is there in tea?" "What is fair trade tea?" and "What is the difference between black, red, yellow, green, or white tea?" Connecting past and present and spanning five thousand years, Beatrice Hohenegger's captivating and multilayered account of tea will enhance the experience of a steaming "cuppa" for tea lovers the world over.

## Read Online The Copeland Collection Chinese And Japanese Ceramic Figures

The Chinese ceramics in the Rijksmuseum comprise one of the finest but least known collections of Chinese porcelain in the world. This book is the first scholarly publication of the Ming and Qing export wares in the collection. The 400 pieces included, many published here for the first time, are described and illustrated in full color. These include Kraak and Transitional porcelains, a wide selection of Kangxi underglaze blue and polychrome ware, famille rose and other eighteenth-century enamelled wares. Also represented are Chine de commande, blanc de Chine and Yixing wares. In addition there is an important section of imperial wares and pieces made for the Chinese market which includes rare and unusual pieces.

Perhaps the most enduring image of the China Trade is the clipper ship carrying tea from China. In 1869 the clippers were finally overshadowed by the introduction of steam vessels which could make passage through the Suez Canal, significantly shortening the length of the voyage. Letters, journals and order books have survived which

tell us about the traders, their private trading activities, motivation, tastes and private lives. This book examines the role played by the port of Liverpool in this time of great change. The book examines Liverpool's early participation in the China Trade following the cessation of the British East India Company's monopoly of the trade in 1834 and maps the changes in artistic tastes that the commencement of free trade gave rise to. These new tastes represented a true fusion of European and Chinese cultural influences and replaced the pastiche of 'The Orient' that chinoiserie represented during the period of the monopoly.--Amazon.com.
