An illustrated introduction to the art of making jewelry, providing a review of metallurgy, describing basic and advanced techniques, examining various surfaces, and including step-by-step instructions for several projects.

The art of soldering—permanently joining metal components with a torch and solder—can open up a new world of creative possibilities for jewelry makers. In Hot Connections Jewelry, award-winning jewelry designer Jennifer Chin guides you through every step, from choosing a torch to basic techniques like sawing, filing, and riveting, as well as more advanced techniques like creating surface textures, setting stones, and using inlay. With 23 in-depth lessons and 15 stunning projects, as well as inspiring examples from contributing artists, Hot Connections Jewelry is your essential guide to unleashing your creativity and confidence in jewelry making.

Hot and Cold Jewelry Connections is the perfect tool for encouraging jewelry makers to branch out and develop new skills. Kieu Pham Gray ' s unique approach to metalwork begins with a design concept, then shows how to execute it using either cold connections (riveting, tabbing, wire wrapping), or hot connections (easy soldering with a small butane torch), teaching essential techniques of both along the way. These hot and cold options help jewelry makers understand how to evaluate and choose the right technique for their jewelry pieces based on their desired end result.
