with him. These columns were both a revelation and a gift when he wrote them; no one--before Gardner--had written about mathematics like this. They continue to be a marvel. This volume is a collection of Irving Joshua Matrix columns published in the magazine from 1960-1980. There were several collections of Dr. Matrix, the first in 1967; they were revised as Gardner reconnected with the good doctor over the years. This is the 1985 Prometheus Books edition and contains all the Dr. Matrix columns from the magazine.

Children love magic numbers. They love to solve them and to mystify family and each other with them. This book contains various magic matrices that can be solved by children in the primary school. Most focus upon addition, with variations for decimals, fractions and some multiplication matrices. They are aimed at Grade 3 to Grade 6 children. The intention is to make mathematics and addition a positive experience by showing children how to work with the matrices and how to construct their own. A teacher or parent can also create further matrices for the children at the appropriate level.

The Magic Numbers of Dr. Matrix draws us into the intriguing and fascinating world of numbers and number theory. "Numbers, you know, have a mysterious life of their own. It would be naive," claims Dr. Matrix, "to suppose that there is such a thing as a randomly arranged group of symbols." Consider, for example, the decimal expansion of pi. Long considered a random series, it is actually rich with remarkable patterns. "Correctly interpreted," says Dr. Matrix, "pi conveys the entire history of the human race." Dr. Matrix uncovers patterns and signs that will astound you. As Dr. Matrix demonstrates, we need only look to find clues all around us in number and language "coincidences" that will unlock the mysteries of the universe. In *The Magic Numbers of Dr. Matrix*, Martin Gardner introduces us to this

In *Playing the Matrix*, New Thought leader and New York Times best-selling author Mike Dooley shares his most impactful, transformational program for creating major life changes and shaping our futures. Previously only available at live workshops, this information has been delivered in 132 cities, 34 countries, upon 6 continents. For the first time, these complete ideas can be at your fingertips in book form. At the heart of the Matrix lies a simple yet highly unexpected concept for creating major life change, unlike anything shared by other teachers, past or present. It clearly reveals why "manifesting" sometimes works with incredible ease, why it sometimes doesn't work at all, and why, on occasion, it works and yet in hindsight we wish it hadn't. You'll not only learn about the "Bermuda Triangle of Manifesting" that too often leads to heartbreak and loss, you'll discover how to navigate around it, under full sail, with new "Aha!" moments as you come to understand:

- How to achieve clarity in purpose and desire
- How to avoid contradictions and self-sabotage
- How to fuel your dreams with

passion while not attaching to unimportant details and outcomes • How to plan and take action on your dreams without messing with the "cursed hows" • And so much more

Playing the Matrix lays out the actual physical and metaphysical mechanics of manifestation, including your role in the equation of reality creation, so that you can deliberately orchestrate the changes you most wish to see. Once you begin working with the Universe instead of unwittingly working against it, you will truly astound yourself.

Marko exposes the truth about the mental processes and outside forces that cement you firmly into what he refers to as "your belief wardrobe." The book is crammed with fascinating information designed to trigger breakthroughs in understanding the how's and the whys of your currently held beliefs. Some of which may not be in your best interest and may indeed render you more subject to control and manipulation by advertisers, governments or other interested parties. The insights spotlighted in this colorful but practical exposé include a process that he describes as "intentional belief acquisition and management" (as opposed to beliefs superimposed by media, schooling or the TV hive mind). You may

be surprised to learn the criteria that your ego uses to select your beliefs and how much effort is expended by outside forces to render your beliefs compatible with their aims. Also as a side benefit, understanding how the ego within everybody determines beliefs often helps in developing an appreciation of those around you that may have limiting beliefs and possible ways to aid them in realizing the circular nature of their predicament where beliefs select data to reinforce their chosen truth. In an unusually clear and instructive fashion the author provides breakthrough information and techniques intended to successfully lead to the development of an expanded worldview. One from which you can remake your reality to one where miracles are able to be seen all around you and magic can move from the realm of scientific anomaly to a lived experience with infinite possibilities. This new "Science of Liberation" may just be the element that puts humanity back on the path to conscious heaven.
