The Age of Nature | PBS  
Nature, referring to heredity, and the nurture, referring to the environment, are two very reasonable explanations to why we are the people we are today. This debate over whether nature or nurture has a bigger effect on us has been argued and supported very well for both sides. Each side stresses very important details and good explanations for why nature, or nurture, controls how we develop.

Why is nature vs. nurture a very important debate ...  
Human nature is a concept that denotes the fundamental dispositions and characteristics—including ways of thinking, feeling, and acting—that humans are said to have naturally. The term is often used to denote the essence of humankind, or what it 'means' to be human. This usage has proven to be controversial in that there is dispute as to whether or not such an essence actually exists.

Human nature - Wikipedia  
Nature refers to the hereditary factors or the genes of a child, which not only defines a child ' s physical appearance but also helps in building a child ' s personality traits.
