Furnishes a comprehensive guide to improvisational techniques as used in stand-up comedy

Want to learn the improv techniques that helped Mike Myers, Chris Farley, John Belushi, and many others along the road to TV and film stardom? Then let two esteemed founders of long-form improvisational theatre, Del Close and Charna Halpern, teach you the "Harold." This groundbreaking acting exercise emphasizes pattern recognition and subversion of the audience's expectations, which are important factors for making people laugh without ever telling a joke. It involves six to seven players and many kinds of scenes: games, monologues, songs, skits and more, all of which are bound to keep both actors and audience members guessing. The Harold is non-linear entertainment that remembers everything and wastes nothing -- the key to successful improvising -- and has become a standard in comedy clubs and improv theatres around the globe.

Keith Johnstone's involvement with the theatre began when George Devine and Tony Richardson, artistic directors of the Royal Court Theatre, commissioned a play from him. This was in 1956. A few years later he was himself Associate Artistic Director, working as a play-reader and director, in particular helping to run the Writers' Group. The improvisatory techniques and exercises evolved there to foster spontaneity and narrative skills were developed further in the actors' studio then in demonstrations to schools and colleges and ultimately in the founding of a company of performers, called The Theatre Machine. Divided into four sections, 'Status', 'Spontaneity', 'Narrative Skills', and 'Masks and Trance', arranged more or less in the order a group might approach them, the book sets out the specific techniques and exercises which Johnstone has himself found most useful and most stimulating. The result is both an ideas book and a fascinating exploration of the nature of spontaneous creativity.

The Upright Citizens Brigade Comedy Improvisation Manual is a comprehensive guide to the UCB style of long form comedy improvisation. Written by UCB founding members Matt Besser, Ian Roberts, and Matt Walsh, the manual covers everything from the basics of two person scene work (with a heavy emphasis on finding "the game" of the scene), to the complexities of working within an ensemble to perform long form structures, such as "The Harold" and "The Movie". A practical "how to" book, the guide provides exercises throughout to help the reader master each new concept and technique introduced. While the manual is written to be understood by beginners with no previous exposure to improvisational comedy, experienced improvisors will find it to be an excellent resource for honing their skills, clarifying concepts, and generally taking their work to a higher level.

A handbook of essential comedy skills, useful for all performers!

A brief description of the history and goals of two improvisational comedy groups, the Compass and Second City, accompanies interviews with past members from Mike Nichols to Gilda Radner

This new guidebook for the best in improvisation performance is a sequel to the best-selling book, "Truth in Comedy." It tells how to empower improvisation using the "yes" concept with improv performers.
