Reeds Marine Insurance is aimed at all those who have little or no experience of marine or any other form of insurance working within the maritime transport field. Ideal for cargo operators, port managers, ship brokers, and shipping transport managers, it will also be invaluable for students on maritime law, sea transport and shipping courses and for those studying marine insurance as part of a maritime management course. It is designed to take the reader from the basics through to a competent level of understanding on the subject. It includes the main principles underlying marine insurance the 1983, 1995 and 2003 hull clauses fully explained together with war risks insurance a complete outline of the cover given by P and I clubs, set out in an easy to read format an in-depth look at cargo insurance and the standard clauses the principles of General Average includes legal precedents.

This latest and fourth volume in the series comprises ten contributions written by an expert team of academics and practitioners and which collectively analyse and expound many of the contemporary legal issues and debates in the law and practice of marine insurance. Some of the contributions touch upon areas of the law which will be amended by the Insurance Act 2015, and provide an insight to the future changes in the law. The topics covered are An assessment of the Marine Insurance Act 1906 Construction of marine

policies Litigating against brokers – the measure of damages Co-insurance and leading underwriter clauses Duties of good faith of insurers and reinsurers Assured right to interest when a policy is avoided The impact of The Cendor MOPU on the Institute Cargo Clauses Fraudulent claims Aspects of Subrogation Conflict of laws in light of the recast Brussels I Regulation This book is essential reading for maritime lawyers, brokers and insurance market practitioners, academics, and companies associated with the marine insurance markets worldwide.

Marine Insurance Law, Second Edition introduces and clearly explains all topics covered in courses at Masters level, offering students and those new to the area a comprehensive and accessible overview and way into this important topic in maritime law. Beginning by introducing the general principles of the subject and structure and formation of insurance contracts, this text goes on to look at individual considerations in detail, including – the duty of utmost good faith /fair presentation of the risk, insurable interest, terms of insurance contracts, brokers, the premium, causation and marine perils, losses, sue and labour, subrogation, fraudulent claims and reinsurance. This second edition reflects the substantial changes introduced by the Insurance Act 2015, and includes new Appendices containing relevant legislation and example clauses from marine insurance contracts.

For centuries, warranties have played a significant role in the law of marine insurance and have recently sparked debate on a national and international level after calls for reform. This second edition includes a more involved analysis of law reform as well as a discussion of the recent proposals of the
