## Value or Growth Stocks: Which Is Better?

Growth stocks experience stock price swings in greater magnitude, so they may be best suited for risk-tolerant investors with a longer time horizon. Value investing. Value investing is about finding diamonds in the rough—companies whose stock prices don't necessarily reflect their fundamental worth. Value investors seek businesses trading at a share price that's considered a bargain. As time goes on, the market will properly recognize the company's value and the price will rise.

## Growth versus Value Investing - Fidelity
