A new vision for lifelong learning and a world worth ...

Employers are recognizing that formal education credentials are not the only way to recognize and develop talent and that lifelong learning may be the desired trait. Thanks to the fast pace of today's knowledge economy, organizations are seeing lifelong learning as a core component in employee development. The idea is that employees should engage in constant personal learning in order to be adaptable and flexible for the organization to stay competitive and relevant.

loci and modi of learning, more than expanding access and opportunity, more indeed than transferring primary agency from the educator to the learner.

How the value of lifelong learning is inseparable from its ...

The notion of education as a public good provided the basis in many countries for making 'free and compulsory' education available to all; proponents of education for a socially inclusive and democratic society now also claim lifelong learning as a public good (see Riche sin the Grass, Nordic Council of Ministers, 1995) We do not suggest that education, like other 'public goods' such as health and welfare services, requires no further financial investment from individuals and other sources ...
