Introduction. Workplace violence refers to incidents where workers are abused, threatened or assaulted, either by people from within or outside their workplace. Workplace violence may have severe negative consequences for the workers affected, their co-workers and families; as well as for organisations and the society as a whole.

Workplace violence - OSHWiki
Thus the spectrum of workplace violence ranges from offensive language to homicide, and a reasonable working definition of workplace violence is as follows: violent acts, including physical assaults and threats of assault, directed toward persons at work or on duty. Most studies to date have focused primarily on physical injuries, since they are clearly defined and easily measured.
